Education

New Jersey Institute of Technology

Expected Graduation Date

Albert Dorman Honors College (Dorman's Scholar)
B.S. in Computer Science | GPA: 3.84 | Dean's List

May 2027

Relevant Coursework

- Data Structures
- Linear Algebra
- Artificial Intelligence
- OOP
- Data Science
- Database Management
- Internet Applications
- Language Concepts

Technical Skills

Languages: Java, Python, SQL, JavaScript, PHP, C++

Frameworks & Libraries: Spring Boot, React, FastAPI, Streamlit, TensorFlow, YOLO, OpenCV, CLIP, BLIP, FAISS

Tools & Platforms: VS Code, AWS (S3, RDS), Firebase, PostgreSQL, Jupyter Notebook, Git, Tableau, Postman, Anaconda

Experience

Department of Informatics - New Jersey Institute of Technology

Newark, NJ

Research Assistant - AR & Cultural Storytelling

July 2025- Present

- Identified gaps in AR applications for cultural heritage by reviewing **8+ research papers**, guiding the project's focus on immersive storytelling.
- Proposed an **AR platform** to narrate **family jewelry stories**, preserving heritage through engaging experiences.
- Incorporated insights from research to enhance **inter-generational cultural connection**, laying the foundation for future design and development.

Research Assistant - AI & Elder Care

Apr 2024 - Dec 2024

- Conducted **25+ user interviews** using **Otter.ai** to identify vulnerabilities in **online safety, fraud, and accessibility** for older adults.
- Designed **storyboards** for older adults, creating engaging frameworks to teach and reinforce **safe online behaviors**.
- Synthesized research insights to inform **design recommendations**, improving usability and **engagement** for digital tools aimed at **older adults**.

Projects

NoteShare | Spring Boot, React, PostgreSQL, AWS (S3, RDS), JWT

Aug 2025

- Built a full-stack platform for peers to **upload, search, and download notes** using React and **Spring Boot**.
- Secured access with **JWT** authentication and **role-based authorization** for **students and admins**.
- Integrated **AWS S3 and RDS** for scalable, secure file and metadata storage for a **cloud-optimized solution**.

DermaTag | Python, CNN, FastAPI, React, Canva Code

July 2025

- Developed **full-stack AI skincare tool** using **CNN (PyTorch)** and **FastAPI** to classify facial skin concerns from webcam images, improving product matching accuracy
- Integrated **image-based inference** and **tag-based recommendation logic** with real product links
- **Live camera capture** feature gave **real-time predictions**, and **personalized** recommendations, increasing skincare website engagement

AgentWeave | Python, FastAPI, YOLO, CLIP, BLIP, FAISS, Firebase, React

May 2025

- Programmed a full-stack **AI outfit recommender** using **CLIP embeddings**, **BLIP captions**, and **FAISS vector search**.
- Integrated YOLOv5 to **detect body shape** and **personalize** outfit recommendations.
- Built a React interface with **Tinder-like** swipe gestures connected to Firebase for real-time feedback.

Activities

- **Outreach Chair, Girl Up NJIT** – Led campus-wide engagement initiatives for gender equality.
- **Curriculum Manager, Lyra STEM** – Designed STEM lesson plans for high school students.
- **Treasurer, Kids Who Code** – Managed budgets and funding logistics for club operations.
